FASTER, FASTER

ERASMUS TEAMS - EVEN BETTER THAN FAMOUS SPORTS COACHES!

2018 is a really sporty year! It started with the Winter Olympics in South Korea and let the temperatures fall below -15 degrees to offer realistic conditions even to the European audience. At the moment football fans around the world are impatiently waiting for the kick-off in Russia. The first Football World Cup game is starting on 14th June.

These sports events display the special Erasmus+ flair - the best international teams or players come together and offer a worth-seeing performance of their subject matter. Maybe we are not the best football players but experienced "coaches" who know well-proven training methods to make school an interesting place of learning. Watching sports events on TV can be quite entertaining but of course it is rather moving to do sports by yourself! PE at school offers opportunities for everyone. You don't have to be only a football fan. There are so many possibilities to overcome the limitations of gravity and to change the perspective. For example while performing a handstand or building human pyramids. In summertime it is really enjoyable to cool down in the swimming pool after the lessons. And an impulsive horse from the riding club helps you to improve your sense of balance. Besides, be inspired by many famous sports persons in this magazine who were maybe discovered and supported by their teachers at school!

COOL BRAINS

ANGELO CHARISTEAS (born 1980)

All Greece knows this football player as “the immortal Greek God”. He scored the goal that made Greece European champions in 2004. “That goal changed my life,” said Charisteas. “Obviously I will never forget that moment. What I am today, as a person and as a footballer, I owe to this goal.”

Michaela Popovičová, Czech Republic

JANNE FRIEDERIKE MEYER-ZIMMERMANN (born 1981)

She is a German show-jumper who rides at Olympic level. She and her horse Cellagon Lambrasco were in team that won the World Equestrian Games in 2010 and took the 10th place in the Olympics. She is active in charity too – she supports breast cancer help and fights against AIDS and exclusion.

Merle Ueckermann, Germany

JANICA KOSTELIĆ (born 1982)

She is an alpine ski racer from Zagreb. She is the only woman who has won four gold medals in the Winter Olympic Games. She was also able to win five disciplines of the world cup. In 2007, after series of healthy problems she retired skiing when she was only 25.

Anna Mingacho Salmeron, Spain

CHRISTIAN ERIKSEN (born 1992)

He is the Premier League's most intelligent, imaginative midfielder. He has been Tottenham Hotspur's creative director for the last four years: finding space, demanding the ball, running the game, knowing when to play slowly, when to play fast, when to turn, when to pass, when to shoot. He does not diligently watch games back, he does not obsess over his statistics. He just knows.

Kristel Nguetgna, Spain

MARTINA SÁBLÍKOVÁ

(born 1987)

Martina is a Czech speed skater, worldknown as a a long-distance specialist. Today she holds six olympic medals three of them gold and is Czech republic's greatest ever speed skater. At our school, the Rosengårdschool we have a girl that admires her. And she does speed skating and inline speed skating herself.

Anke Vondeling, Denmark

MIREIA BELMONTE GARCIA

(born 1990)

She is a versatile Spanish swimmer, specializing in freestyle, IM and butterfly. She has been already swimming competitively by the age of 5. Within her swimming career she has broken five world records in short course swimming. She is titled as Spanish best swimmer in history and is only the 5th Spanish swimmer in history who won a medal in the Olympic Games.

Viktorija Žerjav, Croatia

WINDOW TO SCHOOL

CELLE (Germany)

Just have a look through the window of our small gym. You can find there noisy students happily playing games, dancing, jumping on trampolines, practising gymnastics.

Our core curriculum of PE enables the kids to get in touch with a variety of sport disciplines. Starting with easy games in class 5, the pupils learn step by step how to smash a badminton ball precisely or how to impress friends with a dunking or rebound. Besides different ball sports the colleagues offer their students to try out swimming,

athletics and self-defence. Even triathlon can be tested. On Wednesdays there is the possibility to learn riding in one of the clubs!

Each PE teachers has a specific affinity. We have colleagues who played football successfully or still take part in marathons every weekend.

There are regular sports events and competitions for all classes. The typical German games „Völkerball“ or „Brennball“ are played in classes 5 and 6. Basketball match is implemented for classes 7 and 8. And the big football match for the graduating classes 9 and 10 is a real highlight at the end of the term. The idea of inclusion can be found in sports competitions which enables students with special needs to be a full member of the team.

Ambition is an admriable trait but we also want pupils to develop social behavior and a strong team spirit – following the idea of Pierre de Coubertin: “The important thing in the Olympic Games is not to win, but to take part!”

Anne Jäger-Klein

ČAKOVEC (Croatia)

Primary School Strahoninec takes part in European School Sports Day to promote importance of physical activity and health. Students from first to fourth grade of primary school play different sports games on the school playground while older students go to the sports ground nearby.

Advantages of exercising and healthy lifestyle are being regularly promoted in our school. Taking part in the Sports Day is just another way to show positive health effects of exercising to our pupils and to encourage them to spend more time in outdoor recreational activities.

Petra Žganec

TRIKALA (Greece)

Annually several school tournaments are held in our country. This year, our school took place in the volleyball tournament and managed to come second. We conquered the second place after a series of winning games that allowed our school to reach the finals. The Larisa high school players defeated our team but that did not minimize the effort that was put in the preparation for that tournament.
